

Sprint Retrospective, Iteration #2

Issue #	Tasks #	Tasks Assigned To	Estimated Effort per Task (in hours)	Actual Effort per Task (in hours)	Done (yes / no)
#4	<u>Add notification functionality</u>	Elena Dumitrescu	3h	3h	yes
#5	<u>Add pipeline on scheduler microservice</u>	Robert Vădăsteanu	1h	1h	yes
#6	<u>Authentication on Scheduler Microservice</u>	Robert Vădăsteanu	3h	3h	yes
#7	<u>Solve the Pair bug</u>	Elena Dumitrescu	1h	1h30m	yes
#10	<u>Request personal info from User Controller</u>	Zoya Van Meel	3h	3h	yes
#11	<u>Event owner approves or declines User who signs up to an event</u>	Zoya Van Meel	3h	3h	yes
#12	<u>Request and Pick position Controllers</u>	Alexandra Darie	3h30m	3h30m	yes
#13	<u>Only the owner of an event should be able to delete the event</u>	Sander Vermeulen	15m	10m	yes
#14	<u>Add MySQL database to authentication-microservice</u>	Robert Vădăsteanu	10m	10m	yes
#15	<u>Allow the user to create events</u>	Alexandra Darie	2h	2h	yes
#17	<u>Solve wiring bugs</u>	Robert Vădăsteanu, Elena Dumitrescu	5h	10h	yes

Project: Rowing

Group : 31b

Main Problems Encountered

Problem 1

Description: We had issues inconsistencies such as different issue descriptions.

Reaction: We set up a template and changed all descriptions to match the template.

Problem 2

Description: We didn't add the time estimate's from the beginning.

Reaction: We derived the time estimate's from the actual time spent on those issues.

Problem 3

Description: Our microservices' functionalities were finished separately, but were not working together due to wiring bugs, which we had to solve last minute.

Reaction: We created a separate branch that fixed all wiring bugs on development branch.

Adjustments for the next Sprint Plan

We will merge the Merge Requests as soon as they are done and approved, such that the wiring bugs are spotted early and wouldn't make it as far into the development phase. Also, we will be check each other's work whilst still in process, thus being aware of the others' design choices and resulting in less inconsistencies.
