Sprint Retrospective, Iteration #4

Issue #	Tasks #	Tasks Assigned To	Estimated Effort per Task (in hours)	Actual Effort per Task (in hours)	Done (yes/no)
#22	User-Microservice Testing	Alexandra Darie Zoya van Meel	10h	10h	yes
#26	Testing for the Scheduler microservice	Sander Vermeulen Robert Vadastreanu Elena Dumitrescu	8h	7h	yes
#28	Fix notification output format	Zoya van Meel	30m	30m	yes

Project: Rowing
Group: 31b

Main Problems Encountered
Problem 1
Description: The test coverage is not enough.
Reaction: We add more test cases to cover as much condition as possible and get at least 80% coverage.

Adjustments for the next Sprint Plan
As the necessary requirements and design patterns have been implemented, we will use other software analytics tools to compute code metrics and refactor our code based on it.
